As an honest, religious, and hardworking individual, my objective is to become a respected leader in the field of Computer Science Engineering, with a focus on Machine Learning. I am driven by a deep sense of integrity and a commitment to ethical practices, ensuring that my work aligns with my personal values and religious beliefs. I am eager to contribute to projects that have a tangible impact on industries such as healthcare, finance, and sustainability, farming, ultimately making a positive difference in people's lives.

## Education

**2019 – 2023**

**Bangladesh Army University of Engineering & Technology**  
Bachelor of Science in Computer Science and Engineering

**2016-2018**

**Shahzadpur Govt. College**  
Higher Secondary Certificate

## Personal Project

- Gauri AI Base Blind App using Python and Java.
- Bidyapith AI Base Education Website using Python and Django.
- Kriisan AI Base Farming Website using PHP, HTML, JS, CSS, Python, Django.
- Skin diseases detection using Gradio and Google Colab.
- Data correction & helping ML, PC software using Python.
- TrainifyPro - Image Classification Training Companion.
- ImageCategorizer: Intelligent Image Classification Software .
